The property and buildings have been built and maintained to an exceptionally high standard and occupy a strategic location with excellent communication links.

Further details are available from the selling agents.

THE BUNGALOW

The bungalow is a modern dwelling constructed in 2013 of concrete block and brick elevations beneath a slate roof. The property benefits from the ability to be accessed independently from the farm buildings, offering a degree of separation.

The internal layout and overall accommodation are shown on the accompanying floor plan and briefly comprise front door opening into an entrance lobby, with a door leading through to a sitting room featuring a log-burning stove. A garden room provides further living accommodation and enjoys views over the garden.

The kitchen is fitted with a range of base and wall units incorporating a single sink and drainer, together with an extractor fan.

Adjoining the kitchen is a utility room with base and wall units, single sink and drainer, plumbing for washing machine and housing the central heating boiler. A cloakroom provides a WC and wash hand basin.
