Sustainability

At Eco Developments we take our environmental responsibilities extremely seriously. Our new-build homes are typically 30% more efficient than traditional housing in the UK which not only saves you money on your running costs, but also reduces the impact on the environment. We are fully committed to high levels of energy efficiency which is why our in-house sustainable team is working towards us having net zero carbon homes in use by 2030 and for our own operation to be net zero carbon by 2025.

Energy efficiency built-in. EPC : B

Our typical B rating means our homes are much more energy efficient than traditional D-rated homes.

Lower-carbon bricks

Our concrete bricks typically use 28% less carbon in the manufacturing process in comparison to clay, delivering a total lifetime carbon saving of 2.4 tonnes of CO2 per house built.

High levels of roof insulation

Keeping your home warm in the winter, cool in the summer and reduced energy bills all year round.

Argon gas filled double glazing

Greater insulation leading to reduced heat loss.

Energy efficient lighting

Energy-saving LED light bulbs our specified as standard in all our homes.

A-Rated appliances

Many of our kitchen appliances have an A - rating for improved efficiency.

A-Rated boilers

All our boilers are specified in order to achieve high efficiency levels.

Electric vehicle charging

We provide electric vehicle charging ports to every home.

Ultra-fast broadband

Fibre connectivity encourages home working to reduce your carbon footprint.

Local links

Our developments are close to amenities and public transport to help you reduce your carbon footprint.

Location

Within centre of Cullingworth village less than 500m away the residents of Manywell Heights benefit from easy access to a well-stocked local convenience store, post office and pharmacy, as well as excellent schools.
